Re: The United Education Foundation Mini-Grant Program Request for Proposals
Date: 30 August 2022

The United Education Foundation (UEF) is once again sponsoring a Mini-Grant Program for the 2022-2023 school year. Mini-grants may be written in any academic area including, but not limited to, science, language arts, mathematics, health/physical education, fine arts, technology, and distance learning.

The purpose of the Mini-Grant Program is to encourage the development of innovative classroom or school-based curricular/instructional projects that will impact student learning. Mini-grants may be submitted by a single teacher or by a subject-area or grade-level team. The maximum award for each grant proposal selected will be \$250. This amount may be awarded as a single project or as multiple awards.

The mini-grant proposals will be judged using the following criteria:

- Meeting identified needs of students
- Actively involving students in learning
- Addressing state/district learning standards
- Extending, enriching, or enhancing the "regular" program
- Making learning fun

Proposals must be received on or before **FRIDAY, SEPTEMBER 23, 2022, at 4:00 p.m.** Proposals received after that date/time will not be considered. An application for proposal can also be found on the Foundation's website: <http://uefqc.org/index.php>. Completed proposals will only be accepted through the Google form.

Funded mini-grant projects will be announced on **Friday, October 14**, with a celebration on **Monday October 24, at 4:00 p.m.** Materials for projects may be ordered after October 24, 2022, allowing those projects to be implemented during the 2022-2023 school year.

If you have any questions, please contact Dr. Jay Morrow at 309-752-1611, or jmorrow@uths.net.

**UNITED EDUCATION FOUNDATION
MINI-GRANT PROGRAM
INFORMATION AND GUIDELINES**

The accompanying Request for Proposal, including budget page, must be received on or before **FRIDAY, SEPTEMBER 23, 2022 at 4:00 p.m.** Proposals must follow the Request for Proposal format in order to be considered. Requests may be made for a single classroom or multiple classrooms. Only one request per project. It may not be possible to fund multiple projects from one applicant.

Proposals will be judged using a 1 – 10-point scale for each of the following criteria:

Identified Need(s)	The proposal meets the learning needs of students.
Active Learning	Student-centered instruction that requires students to think, question, manipulate, discover, and/or problem-solve to learn skills and concepts.
Address Learning Standards	The proposal and its activities are aligned with state/local learning standards and/or benchmarks.
Extend, Enrich, or Enhance the "Regular" Program	Activities which go beyond the standard curriculum and traditional instruction to present learning in new and/or different ways.
Affective Domain (Make Learning Fun)	Activities which make learning "come alive" for students by taking it out of the textbook and putting it in the real world.

Proposals may receive up to five "bonus" points for projects that integrate two or more subject areas. (Maximum points possible = 55.) Proposals will be rank-ordered and selected based on points.

The maximum award for any proposal (whether for a single classroom or multiple classrooms) will be \$250. Proposals may be selected, but the final budget dollar amount may be reduced. Awarded dollars may be used for such things as materials and supplies, books, periodicals, computer software, videos, curriculum materials, equipment, field trips, and classroom speakers. It may not be used for college tuition, teacher stipends, workshop costs, or substitute teacher costs.

Each school district will follow its normal purchasing procedures to expend the mini-grant funds. Requests for reimbursement may be submitted with receipts once funds are expended. One reimbursement check per district will be issued. All awarded mini-grant dollars must be spent prior to the end of the 2022-2023 school year.

Completed proposals must be submitted through the Google form by the deadline. Please contact Dr. Jay Morrow at 309-752-1611, or email jmorrow@uths.net, with any questions.
